

CHAPTER 5

CONSULTATION AND COORDINATION

5.0 CONSULTATION AND COORDINATION

The Cotterel Mountain Wind Power Project is being proposed on public lands primarily managed by the Burley Field Office of the Idaho Bureau of Land Management (BLM). However, a variety of other organizations, agencies and people maintain an interest in the area or use the area for specific purposes. These include, but are not limited to: Idaho Department of Fish and Game (IDFG); U.S. Fish and Wildlife Service (USFWS); Idaho Department of Lands (IDL); Cassia County; the Shoshone-Bannock Tribes; the Shoshone-Paiute Tribes; communications site rights-of-way holders; Bonneville Power Administration (BPA); Minidoka County; the Bureau of Reclamation; Idaho Power; and certain grazing permittees. BLM established a coordinated effort for participation in the analysis process by:

- Inviting USFWS, IDFG, and BPA to cooperate in the preparation of this document;
- Through organizing an the Interagency Wind Energy Task Team (IWETT);
- Through formal consultation with the Tribes;
- Through contacting, meeting with and providing information to various groups and local governments; and
- By seeking the active participation of the public and existing permittees in the scoping process and throughout the analysis process.

This chapter addresses the consultation and coordination that has taken place, in both an informal and formal setting, with the Shoshone-Bannock Tribes, the Shoshone-Paiute Tribes, federal, state and local government, interest groups and the general public.

5.1 SPECIFIC CONSULTATION ACTIONS

5.1.1 Formal and Informal Government-to-Government Consultation with Tribes

During the initial public scoping period, a meeting was held on January 16, 2003 with the Shoshone-Bannock Land Use Policy Commission (Commission) to provide information on the Proposed Project, answer questions, and solicit Tribal input. During that meeting, it was suggested by the Commission that the Proposed Project be presented to the Tribal Business Council (Council). A meeting was subsequently scheduled and held with the Council on March 12, 2003. Prior to the start of the public scoping period, Mike Heckler of Windland, Inc. (Windland) met with Delbert Farmer, a former Council member, as well as Diane Yupe and LaRea Buckskin of the Heritage Tribal Office (HETO) to provide information on the Proposed Project. Members of the Tribal Environmental Staff attended a field tour of the Proposed Project area on September 22, 2003 and comments on the Proposed Project were received by the BLM in a letter dated October 17, 2003. Subsequent to the formation of the BLM, Twin Falls District on October 1, 2004, formal consultation was initiated with the Shoshone-Paiute Tribes through the Wings and Roots Program Native American Campfire on October 29, 2004. The Wings and Roots Program is the formal consultation process used by the Tribes and the BLM. Since that date, the Burley Field Office Staff along with the Twin Falls District Manager have participated in consultation through the Wings and Roots process on December 2, 2004, January 20, 2005, February 23, 2005, March 16, 2005, June 30, 2005, July 28, 2005, September

1, 2005, and December 8, 2005. Participants representing the Shoshone-Paiute Tribes have been Terry Gibson, Ted Howard, Emmett Hall and Tim Dykstra. Douglas McConnaughey has facilitated the Wings and Roots meetings. Table 5.1-1 lists chronologically meetings and consultation with the Shoshone-Bannock and the Shoshone-Paiute Tribes.

5.1.2 Intergovernmental (State and Local) and Interest Group Coordination

Members of state, county, and city governments and interest groups were contacted about the Proposed Project and invited to comment. In response, the IDL and IDFG submitted comment letters to the BLM identifying their preliminary concerns through the public scoping process. In addition, comment letters were received from the Western Watersheds Project, Advocates for the West, Land and Water Fund of the Rockies, Idaho Conservation League, Prairie Falcon Audubon Society and the Sierra Club, Sawtooth Group. Table 5.1-2 documents chronologically consultation with state, county, and city governments and other interest groups.

Initial public scoping was conducted to help identify issues to be addressed in developing a full range of alternatives. Prior to the publication of the Notice of Intent (NOI) in the Federal Register, BLM agency representatives, at the request of local interest groups, provided preliminary information on the Proposed Project and answered questions. These groups included: IDFG; the Albion Joint Management Association; the Cassia County Public Lands Committee; the Mini-Cassia Chamber of Commerce; the Burley Lions Club; the Cassia County Commissioners; and the Upper Snake River District Resource Advisory Council (RAC). This pre-National Environmental Policy Act (NEPA) planning process facilitated a free-flow exchange of ideas, and a chance to educate interested and involved parties on wind as an energy resource and the trade-offs in terms of consequences to the environment as opposed to benefits from power generation. Consultation and project updates continued with these groups and others subsequent to the publication of the NOI and the beginning of the NEPA process. Additional groups and governments involved in the process were: the Cities of Albion, Malta, Declo and Burley; the Rotary Club; the Cassia Soil and Water Conservation Group; the C-Plan Committee; the North and South Cotterel Grazing Associations; and the Twin Falls District RAC.

5.1.3 Resource Advisory Council (RAC)

Resource Advisory Councils are advisory boards established by the Governor of Idaho to coordinate with the BLM and provide input on important issues. A RAC consists of members of the public; each representing one or more of the many resources the BLM manages. Early on in this analysis process, the Upper Snake River District RAC was presented with the Proposed Project and invited to participate in the analysis. They were first introduced to the project at a RAC meeting on November 19, 2002 where they were given a presentation on the proposal and information was shared. They were given project updates periodically until the Burley Field Office became part of the new Twin Falls District on October 1, 2004, at which time the new Twin Falls District RAC became involved. They in turn were presented with the Proposed Project and invited to participate at a RAC meeting on November 9, 2004. They have been periodically updated and have attended project site tours.

5.1.4 Cassia County Public Lands Committee

The Cassia County Public Lands Committee is a local working group that expressed an interest in the Proposed Project. The committee is somewhat unique being one of only two such committees in the State of Idaho. It is comprised of citizens and local county officials that have varying interests in Federal actions and public lands. They meet regularly with the BLM and the U.S. Forest Service to discuss and provide input on the important issues that affect public lands within Cassia County. This group has also been presented with project updates throughout the analysis process.

5.1.5 Congressional Staffs

Local Congressional Staffs were briefed on the Proposed Project by Field Office Manager, Theresa Hanley at a meeting in Twin Falls in December of 2002. Members of the Burley Field Office Staff also briefed the BLM Acting State Director, along with several members of his staff on the project in October of 2002, and obtained their concurrence for the necessity for the preparation of a Resource

Management Plan amendment and Environmental Impact Statement (EIS) for the Proposed Project. Wendy Reynolds, the Field Office Manager for the Burley Field Office, conducted a briefing and on-site tour of the proposed Cotterel Mountain Proposed Project area with congressional representatives, Heather Teal, Linda Culver and Mike Matthews on August 23, 2004. A briefing of Congressional Staffers was completed on December 14, 2005.

5.1.6 Consultation with Federal Agencies

The USFWS supplied a comment letter during the public scoping process. A scoping meeting specific to wildlife issues was held with the USFWS, with IDFG present, at the BLM Burley Field office on February 3, 2003. Representatives from the USFWS also attended an interdisciplinary resource team field trip to the Proposed Project area on August 20, 2003. Table 5.1-3 lists chronologically the consultation completed with Federal Agencies.

The BLM and USFWS operate under an interagency agreement in a cooperative approach to fish and wildlife management. The BLM enters into consultation with the USFWS pursuant to Section 7 of the *Endangered Species Act of 1973, as amended*. The consultation process includes both “informal” and “formal” consultation. A biological evaluation process is used by these agencies to identify which listed or proposed species could be affected by the proposed action, to evaluate the possible effects, and to determine if formal consultation is required. Because of the presence of bald eagle known to use the Proposed Project area, formal consultation is being conducted with the USFWS and a Biological Assessment is being prepared relative to the bald eagle. A Biological Opinion based on the findings in the Biological Assessment will be issued by the USFWS and made a part of the Record of Decision of this analysis.

5.1.7 Interagency Wind Energy Task Team (IWETT)

Following an interagency coordination meeting with BLM, IDFG, USFWS and representatives from Windland, Inc. and Shell WindEnergy, Inc., the IWETT was formed consisting of members from BLM, IDFG, USFWS and URS Group, Inc. The IWETT was chartered to assist in the Proposed Project analysis process as described below:

- Review baseline technical wildlife reports and data and identify additional data needs, if appropriate;
- Assist and contribute to the development of mitigation measures;
- Assist and contribute to the development of adaptive management strategies;
- Assist with development and/or further enhancement of a range of alternatives;
- Provide technical input for the environment consequences (impacts) section of the Draft EIS; and
- Define what constitutes an adequate project-monitoring program.

The IWETT met eight times over the course of several months to address these issues and assignments. Table 5.1-4 lists a chronology of IWETT coordination and consultation.

5.1.8 Initial Public Scoping-Mailing List

At the beginning of the project a mailing list was developed to send out project publications to individuals, organizations, and agencies. The mailing list included names and addresses from the lead agency, BLM existing mailing lists, potentially affected federal, state and local agencies, organizations, Tribes, and other interested private parties. This mailing list had approximately 115 interested parties. During the course of the project analysis, the mailing list has grown to include approximately 250 interested parties.

The initial mailing list was used to include interested parties during the course of the project through newsletters. A Public Scoping Notice Newsletter was prepared and mailed on December 19, 2002. The Notice invited the public to participate in the scoping process and to comment on the planning criteria. A BLM mailing address and email address were provided in the scoping newsletter with a pre-addressed comment form, for the public to send into the BLM with comments on the Proposed Project. This first Newsletter served to inform the recipients of the public scoping process for the preparation of the Draft EIS and Land Use Plan Amendment and the scheduled scoping meetings for the Proposed Project. It also included background information on the Proposed Project, the purpose and need for the proposed action, and preliminary resource issues.

A second newsletter was published and mailed in July of 2003. This newsletter provided an update on the progress of the EIS process, studies that had been completed, and an updated schedule.

5.1.9 Public Scoping Meetings

Public scoping meetings were held in Albion, Idaho on January 7, in Burley, Idaho on January 8, and in Boise, Idaho on January 9, of 2003. A total of 135 individuals attended the three meetings.

The scoping meetings were held in an “Open House” format and featured informal, one-on-one question and answer interactions by BLM and URS interdisciplinary resource team members. Representatives of Windland were also on hand to answer technical questions about the Proposed Project. Attendees signed a registration sheet as they entered the room. The interdisciplinary resource team members then escorted attendees to stations set up around the room. At each station were display boards with information about the Proposed Project. Information presented on the display boards included; resource issues; planning criteria; Proposed Project design; visual simulations; equipment diagrams; and an initial proposed schedule for completing the planning process. Attendees were encouraged to provide written comments and questions on the Proposed Project on provided forms and leave them at the meeting or mail them to the BLM. Table 5.1-5 lists the agencies, groups and individuals who responded during the scoping process.

5.2 DRAFT EIS COMMENTS AND RESPONSES

On July 1, 2005, a Notice of Availability (NOA) was published in the Federal Register and the Draft EIS was made available to the public. The publishing of the NOA in the Federal Register marked the beginning of the 90-day public comment period on the Draft EIS. During the comment period, interested parties were invited to submit comments on the Draft EIS to the BLM. Public meetings were held to describe the content of the Draft EIS and to receive comments in a public forum. Meetings were held on July 26, 2005 at the Burley High School, located in Burley, Idaho, on July 27, 2005 at the Marsh Creek Event Center located in Albion, Idaho, and on July 28, 2005 at Boise High School located in Boise, Idaho. The Final EIS incorporates revisions to the Draft EIS made in response to comments submitted during the 90-day public comment period. During the public comment period 72 written comments were received by the BLM via comment forms, mail, email, and facsimile. The comments received during the comment period and responses to the comments are provided in Appendix H of this Final EIS.

5.3 LIST OF PREPARERS
